

Web Developer

Diploma

Program Overview

In the Web Developer diploma program, students learn the coding languages required to be a front-end web developer and create dynamic websites. The program covers the primary and in-demand web development programming languages: HTML, CSS, and JavaScript.

Throughout the program, students gain hands-on experience with a range of web development projects that build in complexity as students add coding languages and technology skills to their toolkit.

Graduates of the program will be able to:

- Design the appearance and layout of websites
- Develop cross-browser and cross-platform websites
- Create and optimize content for websites using graphics, animations, and other software
- Translate wire frames and storyboards into functional, responsive websites

Career Opportunities

Graduates of the program may pursue a variety of positions in web development, including web developer, UI/UX developer, front end web developer, HTML / CSS developer, and Javascript / jQuery developer.

Program Notes

Tuition fees include all course materials. Financial assistance may be available for those who qualify.

Graduation requirements: Students must maintain a 75% program average to obtain a diploma.

Method of Delivery

Integrated Learning™ System training facilitated by qualified learning coaches or online instructor.

Admission Requirements

Grade 12 or equivalent or Mature Student Status. Courses are open to any applicant who possesses a good command of the English language and is able to follow instructions. Applicants whose first language is not English must provide proof of English proficiency.

An admissions interview will be administered to determine if the applicant has the required interest, motivation, and entry-level skills to take this program.

Full-time students must attend the required hours per week as per the course schedule and may do so at times convenient to them.

Competencies upon Completion

Core Courses

- **Keyboarding**
Minimum 25 words per minute (WPM)
- **Operating Systems**
Intermediate level of proficiency with Windows OS
- **Software Development Industry**
Computer and Technology Basics for Developers, Overview of Software Development
- **Software and Web Development Skills**
Version Control, HTML, CSS and Bootstrap, JavaScript
- **Database Skills**
Basic level of proficiency in Microsoft Access
- **Word Processing and Spreadsheets**
Basic level of proficiency in Microsoft Word and Microsoft Excel
- **Office Skills**
Personal Computer Fundamentals, basic level of proficiency in Microsoft Outlook and Internet Fundamentals
- **Business Skills**
Customer Service, Project Management
